PROFILE

I'm a passionate software engineer and web developer specializing in building scalable, user-friendly web applications with expertise in both frontend and backend technologies. Currently studying at Addis Ababa University, I continuously expand my skills while actively engaging in communication-driven initiatives and various clubs, enhancing both my technical and interpersonal abilities.

EXPERIENCE

Domestic violence reporting and supporting System.

- UI/UX Design: Designed an intuitive and user-friendly interface that makes it easy for victims and supporters to navigate the platform.
- Frontend Development: Developed the entire frontend using modern web technologies, ensuring responsiveness and accessibility.
-

Restuarant order managment System

- Frontend Development: Designed and implemented an interactive and user-friendly interface for customers and restaurant staff.
- API Integration: Fetched data from the backend API to display real-time menu items, order details, and status updates.
